## PROFESSIONAL EXPERIENCE

### [CAPGEMINI TECHNOLOGIES LTD](#), Mumbai

*Mobile Lead, May 2014 - Present*

- [PSA Motors \(France\)](#): Application catering different brands of PSA cars for their customers in Europe. I am the Tech Lead of the team responsible for transformation of existing application to latest Android standards and guidelines such as Clean architecture, MVVM, Kotlin, DI using Koin and Unit test cases using mock.
- [McDonalds \(U.K.\)](#): Global application of McDonalds to cater their customers to place and manage their food orders. I was involved the application design, development and deployment of UK variant of the application using React Native.
- [Cusine Central](#): This is my private project completely designed in React Native for skill demonstration. 
- [Sales Force \(Cargill Ltd, Brazil\)](#): Client app for its sales team to create orders and view order history for its customers. Used SAP Mobile SDK for first time in our organization for performing CRUD operations seamlessly with backend SAP system.
- [Wit Gele Kruis \(Belgium\)](#): Internal Hospital app for nurses visiting patients at home and keep track of medical records. Complex project due to its predefined requirements pertaining to medical practices and processes.
- [mAssist \(Reliance Jio\)](#): Client app for its agents, to assist customers in their account management, issues and orders. This greatly enhanced the launch process of product (JIO services) in Indian market for the client.
- [Jio Newspaper \(Reliance Jio\)](#): Application for users to download and read major newspapers on devices in form of epaper.

INFOSYS LTD, Pune

*Senior Android Developer, Sep 2010 - Apr 2014*
